

Thank you for volunteering for **Site Setup or Strike**

Please check in at **the Operations Center (located at the corner of Railroad & Summer Street - look for the trailers) at the start of your shift.** One of the crew leaders will assign tasks from there.

Here's what you can expect:

In many ways, the Folk Festival depends on the work done by our site setup & strike volunteers. We'll have different jobs for you to do depending on when you're scheduled, but one thing we can guarantee is that you'll be outside and working hard. Please keep in mind that there might be some waiting involved while work needs are coordinated.

TIPS:

- * make sure to dress for the weather
- * bring sunscreen
- * wear comfortable, closed-toed shoes
- * don't wear your Sunday best!
- * bring work gloves

Your coordinators are **Al Banfield, Roger Hicks, Sean Sykes & Jack Kearns.**
